## Version history

Date	Version	Description
6 February 2024	1.0	First version released for the 2024 reporting year.
4 June 2024	1.1	Fixed check #1870

### 1 GENERAL DESCRIPTION

The purpose of this document is to describe the structure of submitted data and the checks carried out for records. In addition to this document, information is available in the [General description for electronic filing of information returns \(pdf\)](#) document (*tax.fi > About us > IT developers > Data format specifications > General description for electronic filing of information returns*).

### 2 DESCRIPTION OF THE INFORMATION FLOW AND SUBMITTAL OF FILES

This form is for business taxpayers and corporate entities to claim an additional expense deduction for R&D activities (under the Act governing an additional deduction for R&D expenses (Laki tutkimus- ja kehittämistoiminnan lisävähennyksestä vuosina 2021–2025)). In addition, a written description of R&D activities to provide information on the expenses claimed must be enclosed.

The amount of the general additional deduction for R&D expenses, deductible against business income and agricultural income, is 50 percent of the company's/corporate entity's wage expenses related to R&D and its expenses caused by purchased services related to R&D.

Maximum deduction is €500,000 and the minimum deduction is €5,000 for every tax year.

The provisions of the Act governing the temporary additional deduction and the Act governing the tax years' 2021 to 2027 deductions are applied in parallel, so as to prevent claims by companies/corporate entities for the general additional deduction for expenses that already have qualified for the temporary deduction.

The amount of the additional deduction must also be reported on the main tax return form in the Calculation of Taxable Income or in a similar calculation.

Further instructions for completing the form are available on the Tax Administration's website at [Forms](#) (*tax.fi > About us > Contact us > Forms*).

To check the method of identification required by this information flow, the required role and the place in the flow where authorisations are checked, go to [Identification methods, authorisations and representation rights](#)

(Ilmoitin.fi > Instructions and templates > Identification methods, authorisations and representation rights).

### 3 MAKING CORRECTIONS

Submitted electronic income tax returns can be corrected by re-submitting the main tax return form and all attached forms that include data to be corrected. In other words, together with the attached form with the corrections, you must send the main form again, even if it does not contain anything that needs to be corrected.

### 4 PERIOD OF VALIDITY

This specification sets out the requirements of file formatting and checking that come into force 7 February 2023 and continue to be in force until a new version of this specification is released.

### 5 COMBINING THIS INFORMATION FLOW WITH OTHER FLOWS

See other information flows that can be sent in the same file as this flow: [Allowed combinations of forms for electronic income tax returns \(xlsx\)](#) (*tax.fi > About us > Information and materials about taxation > IT developers > Data format specifications > Income tax returns > Permissible combinations*).

### 6 CHANGES ON THE PREVIOUS YEAR/VERSION

Version	Data identifier	Data element	Description
1.0	000	Identifier	The year is changed
1.0	168	All expenses related to research and development entitling to the combined deduction	New position
	169	Support received for covering wages and service costs	
	170	All expenses related to research and development entitling to the combined deduction, after the effect of the received support has been taken into account	
	171	All expenses related to research and development entitling to the combined deduction	
	172	Support received for covering wages and service costs	
	173	All expenses related to research and development entitling to the combined deduction, after the effect of the received support has been taken into account	
	174	Increase to expenses for research and development compared to preceding tax year	
	175	Amount of the extra additional deduction (€0–500,000)	
1.0			New check #1889
1.1		Check #1870	Also accepts €0.00

## 7 LIST OF NAME-VALUE PAIRS

Position	P/ V	Calculation /Check	Description	Format	Allowed values
000	P		Identifier	AN8	VSY67Y24
045	P		Service provider's ID code	AN3	
048	P		Name of the software application that sends the file	AN35	
014	P		Identification of the software that generated the return	Y- TUNNUS_AN2	
198	P		Software-generated timestamp	PPKKVVVV HHMMSS
